

The Connections Times Quarterly Newsletter

Winter 2022

A HUGE **WELCOME** to our second quarterly newsletter to keep our families and friends informed about THE CONNECTION. We hope to give you an idea of our activities, upcoming parent information sessions and other progress that we are making. If you have anything to submit, please sent to smiller@theconnectionsomd.org.

A Note from Pam

As we close 2022, I look back and see how far we have come. I would like to thank everyone for all the support given in the past year. With your support we were able to add Rachel to our staff to help navigate DDA services as well as add new curricula to enhance our programs. I am looking forward to 2023 to see how we can help each participant reach their goals. My goals for 2023 are to enrich our programs through classroom training, community outreach and hands on experiences. I am very excited about what the new year holds.

So...What have we been up to?

We had a fabulous Fall here at The Connection-We focused on Healthy relationships, our cooking skills, and enhancing Our work development skills! We were able to host our first annual fundraiser. The fundraiser was a huge success and allowed us to buy new curriculum for the classroom!

Member Spotlight

Rachel's Corner

By now, you've probably heard of newest Connection team member-Rachel (if not, there is a whole blurb on the website!)...As we launch the new client navigation program, we want to hear from you! What do you have questions about? What workshops would be helpful? Any suggestions and feedback can be emailed to rsullivan@theconnectionsomd.org.

Not sure if you could benefit from client navigation services? Free consultations are available! Reach out by email to schedule an in-person or virtual consult.

This month our member spotlight is on Sami! Through Sami's progress at The Connection, she has been able to obtain a part-time position at the bowling alley. Sami loves going to work and makes her feel accomplished. In Sami's free time, she likes to ride horses and finds them therapeutic.
